Dear Parents/carers,

Happy New Year, we hope you are all safe and well. We can't even begin to imagine how you are feeling after the most recent announcement. We have got through lockdown before and we can do it again!

In light of the current situation, we want to ensure that **all** pupils are able to work from home. We will be uploading maths activities and stories to our Pre-school class page each day. Also those pupils who are working from home will receive a pack in the post with an exercise book and some paper based worksheets, just to get the children started this week. The children can use the exercise books to complete any of their work in, as we understand that printing off worksheets in in many cases is not possible.

We fully understand that not all pupils will have access online resources at all times. In these instances, we ask you still to ensure your child is listening to stories at home, practising letter and number recognition, practise writing their name and holding their pencil correctly.

Please use our class page as the main hub for information, there is a 'January 2021' button for you to follow and access home learning activities and websites to support you and keep the children engaged in their learning at home.

Thank you for your continued support and patience at this strange time,

The EYFS Team xxx
