

The Class of 2025

Let's take a quick trip down memory lane
To that first day in September where you thought we were insane
We spoke of your SATs and the trips and the fun
And we told you your hard work had only just begun

Well congratulations, you've made it, you're almost there!
A few more weeks and we will be out of your hair!
Now is the time to think back to the start
Before we come to the end and you're all apart.

An incredible artist and a palaeontologist in the making
Daniel, keep heading down this exciting journey you're taking
And never far behind you, always a smile on his face
Theo, your writing is incredible, it really is ace.

A true mathematician, David you're a machine
I'll miss seeing your huge lunches- they're better than Windsor's canteen!
He's got great manners and his hair isn't bad either
Oscar, good luck, don't leave us and turn into a diva

Kylie, you've only been here for such a short while
You were what this class needed, you and your style!
She's kind and she's thoughtful, a real pleasure to teach
Hannah, keep working hard, your goals are within reach!

I have seriously lost count of the amount of books she has read
Bernadette, how do you fit all the new information inside your head?!
An Olympian in the making, swimming is her skill
Zara, show your new school what you're made of: remember you're brill!

From teasing me about clowns to his love of football
Jackson, our head boy, thanks for leading the school
She comes across quiet and she is obsessed with anime,
Liv T, I really hope you manage to go to Korea some day!

With his puffy white coat and his mermaid pencil case

Jing, stay the same, go show Earls who should be running that place
Amara, this year you've proved what we already knew- you're smart!
We are so proud of you, and that is not just in art.

She's always so busy running the show
Mirella you're not on the payroll you know!
But you never quit, and you never moan
It just goes to show, look how much you've grown

A love of his books and a love of his family
Jake you will go so far, you just wait and see
While our deputy head boy is a role model and true
Jack, you'll achieve so much in all that you do.

Not just an altar server, but an Athletics pro!
Jojo, you can take your way of doing Maths with you when you go.
Christabel your passion drives you in all that you do
It is admirable how you're always willing to try something new.

The sarcasm is one to match my own,
Erin, this year just look at how much you've grown
You're a talented girl, your writing and art
Keep doing your best, and do it from the heart.

Always smiling away and with chess as his game
You'll make a great surgeon, Amiel, I know that's the aim!
Now he only walked in a few weeks before, but Shees, we're happy you
walked through the door.

Is there anything that this girl can't do?
Sophie, I don't know what we will do without you
Whenever we need you, you're always there
Thanks for everything, its clear how much you care

Now this lovely girl has only one speed,
Its 100 miles per hour, Brooke you were meant to lead.
Always doing the right thing and dancing non-stop
Liv Rooke, whatever you do you'll always land on top!

Now you won't find one without the other
Or as I like refer to them: the Chuckle Brothers
Mikail, (Mickey) promise me you'll smile more because it's lovely to see
While Josiah, never play poker, you can't keep a straight face and you'll lose
all your money.

Obsessed with F1 and he's had us laughing all year
Jimmy, we're so lucky that we had you here.
You've put in the effort and just look how it shows
Just concentrate at Hagley, don't sleep and doze...

With a love of drawing, computing and the colour red,
Max, you've had a great year and I've no doubt a great time at Hagley, ahead.
She takes her jobs seriously and likes to boss us around
Gordon, there's definitely a leader in you, we have found.

Louis, you should be proud of all you've achieved
You've done your best, just like we believed
We knew that you could, just like we said
But you really do have the sweatiest head.

He's funny, he talks non-stop but he's wicked smart
He challenges me, but deep down i know he has a good heart
He rolls his eyes at anything I say or do
But Dexter, its honestly been a pleasure to get to know you!

Now you're always asking who is my favourite child
And to that I answer "Mr Hyde's a child"
Well I will tell you now, honestly without any jest
He is my favourite, the absolute best.

I have loved working with him every day
And I just wanted to take a moment to say
Thanks for everything, the support and the laughter
I'll miss working beside you next year, and every year after.

So to my last year 6, as a TA
Thank you, good luck, youve been OK.

All joking aside, which we know isn't my style
Thank you all for the memories, you've all made me smile
You're all incredible kids and I'd just like to say
You had the best start, at OLSK.
